7 Touch Panel modules

Black

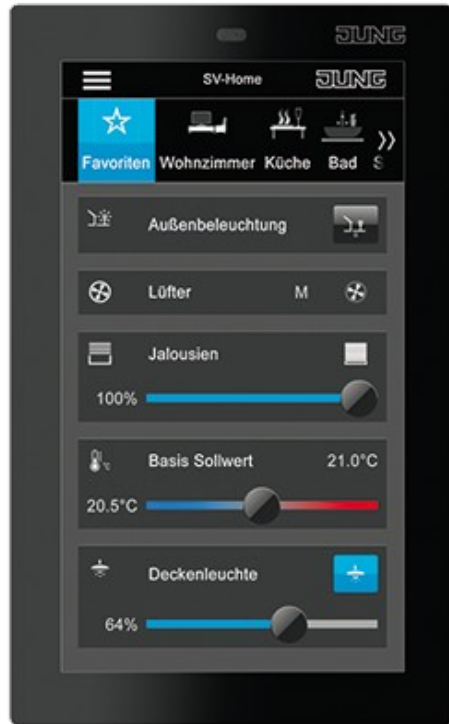

The advantages at a glance:

- one panel for the control of the entire building.
- 7 " display.
- flat shape.
- Touch-Display with intuitive user interface (JUNG Launcher).
- Control systems via app (KNX, eNet, door communication, etc.).
- individually configurable functionality with expansion options thanks to an open operating system.
- for horizontal or vertical installation.
- elegant design covers in aluminum or black.
- Additional visualization on mobile devices possible.

JUNG

Thermometer F 50 KNX Compact room controller module

The KNX compact room controller:

Appeals by intuitive operation and two built-in temperature controllers.

The backlit LCD clearly shows the most important values and functions, irrespective of the viewing angle.

Depending on the respective functions, the button icons shown on the display may be individually selected during programming.

Buttons labelled by means of the Graphic Tool further assist the user in assigning functions; the same applies to the RGB status LEDs.

Push-button sensor or controller functions may be assigned to each of the room controller.
